

S.A.N.[®] Silicone Spray

- by Unipak

S.A.N.[®] Silicone Spray is a silicone lubricant made from a clear, odorless silicone oil.

S.A.N.[®] Silicone Spray is a multi-use and effective spray, with a very high content of silicone oil (30%). NSF approved for use in the food industry.

S.A.N.[®] Silicone Spray

S.A.N.[®] Silicone Spray is extremely suitable as a slide coating for the assembly of plastic pipes, rubber strips and joints. Prevents ageing of rubber parts. Furthermore, S.A.N. Silicone Spray is an efficient, quick-acting slide coating for sluggish locks, hinges, fittings, tools, etc. Spray a layer on your sawblade and it acts like a new one!

DIRECTIONS FOR USE:

Clean the fitting and pipes for sand, soil and dirt. Shake the aerosol spray slightly. Hold the nozzle 10-20 cm from the subject. Spray an even layer of S.A.N. silicone lubricant on the parts after which assembling can be carried out straight away. Is the S.A.N. Silicone Spray to be used as a lubricant for hinges and the likes, the nozzle should be hold close to the part. Carefully press the valve and let the silicone oil work for a while (exercise the materials a little thus the silicone oil can penetrate if necessary). S.A.N. silicone lubricant does not dry up, and therefore later adjustments can easily be carried out.

CAUTION! Make sure the S.A.N silicone lubricant does not get on floors and shoe-soles as it will cause great risk of fall accidents.

Do not ever use silicone oils in connection with painting.
